GENERAL

The Immigration and Naturalization Service ministers and enforces the laws relating to migration and naturalization. Service officers spect all persons arriving in the United States to termine whether they are citizens or aliens, and aliens, whether they are admissible under the migration laws. A related function is that of anting or denying petitions such as those for eferences within quotas, extensions of tempory stay, waivers, or change of status of mission.

In the field of enforcement, the Service has ree major responsibilities; to prevent illegal try of persons into the United States and to prehend any aliens found to be in the United ates in illegal status; to investigate the status of iens who, through violation of the provisions of e Immigration and Nationality Act, become aenable to deportation or denaturalization; and

detain and deport such aliens.

The General Counsel, chief law officer of the rrice, advises the Commissioner on legal questions and cooperates with the United States Attorys in the conduct of litigation emanating from enforcement and administrative responsibilities of the Service. The General Counsel is also sponsible for representations of the Service better the Board of Immigration Appeals.

Another principal area of responsibility is that naturalization and citizenship. This includes e examination of aliens and witnesses to deterine whether the aliens qualify for citizenship rough naturalization; the presentation of the cts in each case and recommendations to the naturation courts; and the issuance of certificates derivative citizens. The Service also carries rward a program of cooperating with the public hools in fostering citizenship education.

TRAVEL CONTROL AND ADJUDICATIONS

Facilitation of Travel

In 1964, the Service continued to place great ophasis upon established United States policy to cilitate travel to this country and to promote iendly understanding and good will among travers of the nations of the world. Inspection produres continued to be constantly reviewed to sure that, consistent with proper administration the law, the travelers would be made to feel welme to the United States. Immigrant inspectors ports of entry have a definite responsibility to tend such a welcome and to offer all possible sistance. Immigration port receptionists, asgned to major international airports, give addional assistance to arriving passengers with ecial consideration for the aged, infirm, and pasingers with small children.

Immigrant Inspector, Port Receptionist, and arriving passengers at Scattle Airport.

The procedure established at ports along the Mexican border in 1963 whereby a single officer of any one of the four Federal inspection agencies performed the combined screening for all four agencies has, after a year of experience, been brought to full effectiveness. This program has provided substantially improved service to the public by streamlining the inspection procedures, yet the interests of all four agencies are safeguarded. On the Canadian border, the practice of dual inspection, whereby a single officer performs Customs and Immigration inspection of automobilists and pedestrians, has now been expanded to include inspection of passengers arriving by bus and train.

During fiscal year 1964, 1,519,666 persons departing from major ports in Canada, Bermuda, and the Bahamas were inspected prior to boarding aircraft or vessels destined to the United States. Such passengers embark on their journey knowing that they will encounter no difficulties or delays by inspection formalities upon arrival in the United States and will be free to go directly to their intended destination in this country. Passengers on some large vessels from Japan, the Fiji Islands, certain South American ports, and Vancouver, British Columbia are offered much the same convenience in that the inspection is conducted enroute and they arrive at United States ports with the inspection formalities completed. The multiple inspections of passengers on cruise vessels arriving in the Virgin Islands and or Puerto Rico destined to the United States were also eliminated. The inspection accorded these persons at the first United States port of call in the Islands now constitutes preinspection for the arrival in the continental United States.

The inspection of persons coming to the World's Fair to operate foreign exhibits and concessions was given special attention and procedures were instituted, designed to facilitate their entry. A temporary Service office has been established at the Fair to offer prompt service to those persons.

During fiscal year 1964, 66,499 vessels and 205,167 planes carried 4,475,324 persons to the

United States from all parts of the world, an increase of 13 percent in the number of passengers over 1963.

Admissions

More than 178 million persons were inspected and admitted into the United States by immigration officers during fiscal year 1964, exceeding last year's figure by three percent and reaching a new high. Persons seeking admission over the land borders or arriving as crewmen accounted for 96 percent of that total. The others arrived as vessel or aircraft passengers at United States sea and air ports of entry. The number of entries made by aliens exceeded 103 million and, of these entries, 98,855,809 were made by border crossers from Canada and Mexico, an increase of 4 percent over last year. Alien crewmen numbered 1,856,286, a 3 percent increase over 1963. The remaining 2,862,355 consisted of immigrants, documented nonimmigrants, Mexican agricultural laborers, insular travelers, and lawful residents returning from temporary visits to Canada, Mexico, and the adjacent islands.

Immigrants. A total of 292,248 aliens were admitted or accorded status as lawful permanent residents of the United States during the year, 4.6 percent less than the number of immigrants in 1963. Of the total, 265,424 obtained immigrant visas abroad and were admitted at ports of arrival as immigrants. The remaining 26,824 already in the United States were granted an adjustment of status to that of permanent residents.

Under the terms of the Immigration and Nationality Act, quotas are established for all countries except specified independent countries of the Western Hemisphere. An annual quota of 158,161 is allocated among the quota areas. During the year, 192844 quota immigrants, amounting to 65 percent of that quota, were admitted. Highly skilled aliens whose services are urgently needed in the United States, and their spouses and children, are accorded first preference under the quota. Such aliens accounted for 4.862 of the total. Of these, 3.831 came from Europe, 654 from Asia, 162 from Africa, and 215 from other areas.

Immigrants Admitted-1955-64.

Among the 2,475 principal applicants were 5t tailors and tailoresses, 328 eigineers, 200 teacher 190 physicians and surgeons, 167 nurses, 129 pr fessors and instructors, 86 chemists, and 45 oth scientists.

Close relatives of citizens and permanent resdent aliens are accorded second, third, and fourpreferences under the various quotas, dependir upon the particular relationship. There we-14.745 relatives admitted in such preference catgories. The balance, 83,237 immigrants, were a mitted under the nonpreference portion of tiquotas. Most of the latter were charged to tiquotas of Great Britain and Northern Irelan Germany, and Ireland, countries which have I waiting list of applicants for immigrant visas.

Immigrants who are natives of specified Wesern Hemisphere countries, and certain othe (principally spouses and children of United Stat citizens) are not subject to quota limitatior These "nonquota" immigrants numbered 1894 in fiscal year 1964. Of these, 135,816 were nativ of Western Hemisphere countries, 6 percent belo last year's figure. Most of the reduction in numbers of immigrants admitted compared to 1963 win this category. Natives of Mexico accounted f 32,965, Canada 38,065, Colombia 10,446, Cub 15,807, and the Dominican Republic 7,537.

The number of spouses and children of citize admitted as immigrants totaled 33,669, comin principally from the countries of China, German Greece, Italy, Japan, Korea, and the Philippine There were 1,651 orphans from Greece, Hor Kong, Italy, Japan, and Korea.

Nonimmigrants. All aliens admitted to the United States for temporary periods are nonimm grants, but there are various classifications with that general category. Exclusive of the citizet of Canada and Mexico who enter frequently border crossers, alien crewmen and the agricultural workers from Mexico, a total of 1,744,86 documented nonimmigrants were admitted durir the year.

Nonimnigrant admissions have increased rapdly during the past 10 years and the 16-percent nerease over 1963 continued the rising trend. Juder the stimulus of the New York World's Fair, urther rapid growth in these admissions may be expected during the coming fiscal year. Visitors for pleasure (up 17 percent to 1,105,268) exceeded ast year's all time high. Returning resident diens registered a relatively large increase (22 percent) and exceeded 165 thousand. The table which follows shows the nonimnigrants admitted his year.

Almost two-thirds of the nonimnigrants admitted this year were from Western Hemisphere countries, with over half a million from Canada or Mexico. Another 27 percent were from European countries, chiefly the United Kingdom (164.54th), Germany (74.051), and France (51.668). The following graph shows the steep climb in non-mmigrant admissions registered over the last 10 years.

During the year, 6,272 persons of distinguished merit and ability, 3,796 trainees and 50,402 other ronimmigrants were brought to the United States temporarily under the provisions of the Innigration and Nationality Act which provides for mportation of foreign workers if like workers are not available in the United States. Included a the latter group were 9,530 Canadian agricultural workers and 17,916 woodsmen, 12,667 agricultural workers from the Caribbean area, 210 from Japan, and 338 sheepherders from Europe. Mexican agricultural workers, brought to the United States under special legislation, numbered 181,738,

Nonimmigrants Admitted by Class Fiscal Year 1964

Class of admission	1964	1963	1962
Total	1, 744, 808	1, 507, 091	1, 331, 383

NATO officials	1, 832	1, 767	1, 005

the lowest figure since that particular program began in 1949.

Mien crewmen who arrived at United States ports during the year and were granted shore leave numbered 1,856,286. Continued emphasis was placed on the issuance to bona fide crewmen of landing cards designed to serve as a means of identification to facilitate their landing. As of June 30, 1964, a total of 575,049 such cards have been issued.

United States Citizens. The number of United States citizens admitted during fiscal year 1964 was 74,939,958, a slight increase over fiscal year

1963. There were 69,951,868 border crossers, 886,867 crewmen and 4,101,223 citizens who were returning from overseas countries or from extended visits in Mexico or Canada. While the total number of admissions of citizens rose only slightly, the number returning from abroad increased by 19 percent, indicating a continuing upward trend in tourist travel by United States citizens.

Refugees

There are three major refugee programs administered by the Service: The processing of Cuban refugees who have fled the Castro regime in Cuba, Chinese refugees in Hong Kong who have fled from the mainland, and refugee-escapees from the Iron Curtain countries in Europe.

Cuban Refugees. The steady flow of Cuban refugees arriving in the United States which began in January 1959 diminished considerably during fiscal year 1964. All commercial transportation between the United States and Cuba has ceased and except for one shipload of prisoners who arrived July 3, 1963, the only Cuban refugees arriving are those who manage to escape from Cuba on small craft. During the year, 3,254 such Cuban refugees arrived at points in Florida directly from Cuba and, after careful screening, they were permitted to enter the United States until such time as circumstances permit their return. Since the Castro Government took over on January 1, 1959, a total of 223,771 Cuban refugees have entered the United States in temporary status. In addition, 43,365 Cuban nationals have been admitted as immigrants.

Hong Kong Chinese. Although no new applications have been accepted since January 1, 1963, other than from the beneficiaries of visa petitions filed prior to that date, the Service continued to process such applications of Chinese refugees in Hong Kong for parole into the United States under Section 212(d)(5) of the Immigration and Nationality Act pursuant to President Kennedy's directive of May 23, 1962. That directive was issued as the result of the mass exodus earlier in the month, of thousands of Chinese refugees from the mainland of China to Hong Kong and was designed to assist in alleviating the overcrowded conditions in the British colony. Parole has been limited to Chinese who are relatives of United States citizens and resident aliens, those with special skills urgently needed in the United States, and those who had applied for entry into the United States under prior refugee laws but who had not been accepted only because of numerical limitations. Before parole is authorized, these aliens must undergo comprehensive security checks, medical examinations and other regular screening procedures in all respects like applicants for immigrant visas. At year end, a total of 10,617 such persons had been paroled into the United States. Special legislation will be necessary before most of these refugees can become lawful permanent residents and qualify for naturalization as

United States citizens.

Refugee Escapees (Act of July 14, 1960). Serv ice officers continued to process registrants in France, Germany, Belgium, Austria, Italy, Greece and Lebanon for refugee-escapee status under the "Fair Share" law which was extended indefinitely by the Act of June 28, 1962. Under this law, the United States may accept during each 6-month period 25 percent of the total number of eligibl refugee-escapees who, during the preceding months, have availed themselves of resettlemen opportunities offered by other countries. Carefu medical, security and other screening procedure are followed before parole under Section 21 (d) (5) of the Immigration and Nationality Ac is authorized, to insure that the entry of the ref ugees into the United States will not be prejud cial to the national welfare, safety or security Two years after entry each refugee is again ex amined and, if found eligible in all respects, ac corded permanent resident status. Those grante such status may apply for naturalization 5 year after their initial entry.

Of the 3,954 persons registered, 2,841 were at proved for parole and 2,753 were actually parole into the United States. A total of 14,576 refuger escapees have been paroled into the United State since the inception of the program in July 196 To date, 6,111 have been accorded permaner

resident status.

Inadmissible Aliens

Exclusions. The purpose of the immigratic inspection conducted at United States ports of entry is to determine whether applicants for ac mission meet the requirements of the Immigration and Nationality Act. The inspecting officer ca only admit those found clearly admissible and there is any doubt as to admissibility he will defe inspection for further examination or he will refe the matter to a special inquiry officer for a form exclusion hearing.

During 1964, Service officers at ports of entiintercepted 177,004 inadmissible aliens. Include in that group were 25,605 alien crewmen who wer refused landing privileges, 159 stowaways wh were detained on board the vessels on which the arrived, 102,720 applicants for the border crossin privilege, and 48,099 others who withdrew the applications for admission rather than go to formal hearing. After holding formal hearing special inquiry officers ordered 421 aliens ex cluded. Of those excluded, 329 were not in posession of proper documents, 24 were inadmissib on criminal, immoral or narcotics grounds, 16 o subversive grounds, and 18 were certified by Publ Health officers to have mental or physical defect

Waivers of Inadmissibility. Discretionar waivers of certain grounds of inadmissibility at authorized in the cases of close relatives of Unite States citizens and lawfully resident aliens in th interest of uniting families, providing it has bee satablished that their exclusion would cause extreme hardship to the relative in the United State and that the alien's admission would not be contrary to the national welfare, safety and security. Discretionary waivers were approved in 952 such pases during the year, 82 percent by Service offices abroad. Most of the applications were from aliens residing in Germany, Italy, and Mexico. One-hundred forty such applications were denied.

An alien inadmissible to the United States by eason of past membership in subversive organizations may be classified as a "defector" upon establishing 5 years' active opposition to Communism and a finding that his admission to the United States would be in the public interest. During the year, detailed reports were furnished the Congress in 59 such cases.

Temporary Admissions Despite Inadmissibility. The discretion vested in the Attorney General to uthorize the admission of inadmissible nonimmigrant aliens for temporary periods was exercised favorably in 3,236 cases after finding that such admissions would be in the public interest.

Adjustment of Status

Application for Status as Immigrant. Aliens. other than crewmen and natives of contiguous countries or nearby islands, who have been inspected at a port of entry and either admitted or paroled into the United States may apply under Section 245 of the Immigration and Nationality Act for status as permanent residents without eaving the country to obtain immigrant visas. A otal of 21,874 such applications were completed of which 20,124 were approved and 1,750 denied. Receipts were down 14 percent from the previous year's high of 24,884, occasioned by the Act of October 24, 1962, which accorded nonquota status o thousands of aliens previously ineligible for adustment because they were chargeable to overubscribed quotas.

A recurring problem in the adjudication of apblications under Section 245 arose in cases of naives of Central and South America who came to he United States as nonimmigrant visitors and promptly sought permanent resident status under Section 245.

Included among the 19,879 aliens granted lawful permanent resident status were 3,049 persons those services were urgently needed in the United States, and their spouses and children, 6,198 pouses and unmarried minor children of United states citizens, 1,388 preference quota immigrant elatives of citizens or permanent resident aliens, 381 nonquota natives of Western Hemisphere countries and 3,466 nonpreference quota immigrants. The principal countries of birth reprented were Argentina, China, Colombia, Gerany, Greece, Italy, Poland, and United Kingdom.

Aliens Who Became Permanent Residents by Adjustment Under Section 245, Immigration and Nationality Act— 1955-64.

Creation of Record of Lawful Entry. There were 2,916 applications under Section 249 of the Immigration and Nationality Act received during the year from aliens who had resided continuously in the United States since prior to June 28, 1940, but in whose cases no record of lawful admission for permanent residence existed. Receipts of such applications again decreased, 7 percent under the previously year. Records were created in 2,585 cases and denied in 90 cases.

other Adjustments. During the year, 4,106 refugee-escapees, previously paroled into the United States under the Act of July 14, 1960, were examined by Service officers, found admissible and accorded permanent resident status. Also adjusted to permanent resident status were 32 former officials of foreign governments or of international organizations and members of their families, under Section 13 of the Act of September 11, 1957, which authorizes a maximum of 50 such adjustments annually. Other adjustments included 37 suspension of deportation cases, 17 Hungarian refurees and 168 other cases.

Visa Petitions and Other Applications

During the year, a total of 718.618 applications and petitions for various benefits and privileges under the immigration laws were adjudicated by Service officers. This was an increase of more than 25,000 over 1963. Decisions on many of these applications and petitions vitally affect the rights of aliens to enter or remain in the United States, and their activities while here.

While appeals are provided in some instances to the Board of Immigration Appeals or the Regional Commissioners, many applications and petitions may be denied as a matter of discretion by the Service District Director or Officer-In-Charge having jurisdiction over the applicant's or petitioner's residence. For example, an application by an alien for adjustment of status to that of permanent resident, or an application by a visitor. student, or other nonimmigrant for extension of stay is not appealable.

Recognizing the need for fairness and consistency in dealing with applicants and petitioners, many of whom are unfamiliar with our language and customs as well as our immigration laws, the Service instituted additional procedures for these administrative adjudications. Among these newly instituted procedures are the following: Petitioners and applicants are given adverse information of which they may be unaware and have an opportunity to rebut it before a decision is made in their cases; orders reflecting adverse decisions recite the evidence considered in arriving at the decision, the weight given various items of evidence and the rationale of the decision; a copy of any order adverse to the applicant or petitioner is furnished him or his attorney, thus facilitating effective administrative or judicial review if desired by the parties affected; and various Service material relating to policies, procedures and administrative rulings, were selected for publication in the Federal Register to be made matters of public knowledge.

Uniformity of decisions throughout the Service was achieved by means of increased and centralized review and dissemination of decisions, and the imposition of limitations upon the redelegation of authority. More administrative decisions likely to recur that involved novel or complex issues of law or fact were published as precedents for the guidance of future applicants and petitioners. Persons seeking Service benefits are now assisted by Service employees in filling out applications and forms, where such assistance is requested or needed. This obviates the need of many such persons to seek outside assistance that they cannot afford and eliminates the possibility that they may fall into the hands of unscruptulous immigration "fixers."

Usu Petitions. Nonquota status, i.e. the prima facie right to obtain an immigrant visa for permanent residence without obtaining a number under the annual quota of the country of the alien's birth, may be accorded the sponse and unmarried minor children of a United States citizen upon petition by the latter, filed with and approved by this Service. During the year, 33,454 such petitions were approved, an increase of 9 percent over the previous year. Similarly, second or fourth preference under the appropriate quota may be accorded other relatives of United States citizens, and third preference status may be conferred upon the spouses and unmarried sons and daughters of lawfully resident aliens.

A total of 26,706 such petitions were approved, a decrease from 33,405 last year. Nonquota status was also accorded 1,709 "eligible orphans" upon petitions filed by their adoptive or prospective adoptive parents after inquiry and investigation both in the United States and abroad established that the child met the statutory definition of "eligible orphan", that the adoptive or prospective adoptive parents would be able to properly care

for the child and, in the cases of orphans to be adopted in the United States, that the preadoption requirements of the state of proposed adoption had been met. Forty-seven percent of these petitions (842) were received in and adjudicated by Service officers abroad.

The highest quota classification, first preference, is reserved for highly educated or highly skilled aliens whose services are needed urgently in the United States. A total of 9,722 such petitions were received from employers or prospective employers in the United States to import such persons, of which 6,723 were approved and 1,708 denied after appropriate inquiry and investigation. Detailed reports were furnished the Corress in each case approved, as required by law.

Petitions filed by employers in the United States to import aliens of distinguished merit and ability, ordinary workers in short supply in the United States and industrial trainees for temporary perods, amounted to 15,732 in fiscal year 1964, as com-

Assistant Officer-In-Charge and a Service interprete travel-through Hong Kong slum in scarch of the addres of an orphan to be located and interriceved.

An "eligible orphan" in the arms of a case worker in a British government sponsored orphanage.

ared to 14,847 received in the previous year. After consultation with other Government agenies, representatives of labor and management, and other appropriate inquiries, 14,146 petitions were approved, and 548 denied. During the year, he Bureau of Employment Security, Department I Labor, undertook to determine the availability a the United States of the various categories of netrainers when petitions for such persons were ubmitted to the Service. Previously, the Service add to rely upon consultations with labor and mangement representatives and other inquiries, strict controls were exercised over all temporary oreign workers.

Other Applications. There were 208,794 appliations by nonimmigrants to extend their temporary stay in the United States approved. This as an increase of 14 percent over 1963, and was ne indication of increased tourism in the United states. Border crossing cards permitting temporary entry into the United States were issued to 64,266 aliens residing in Canada and Mexico who are occasion to enter the United States frequently, nd 11,378 nonimmigrants who, upon application, were permitted to change from one nonimmigrant lass to another (i.e. visitor to student, or student o treaty trader, and the like).

Schools desiring to euroll foreign students must e authorized to do so by the Service. Foreign tudents or exchange aliens must receive permision to transfer from one school or exchange promain to another, and students must apply for emission to accept part-time employment. here were 31,850 applications in these categories djudicated during the year, an increase of 10 per-

ent over 1963.

United States citizens who frequently cross the and borders were issued 14,734 certificates of identity to facilitate their recentry into the United states; resident aliens applied for and received 9,888 reentry permits and duplicate alien registration cards.

Permission to reapply for admission was acorded 4,080 previously deported aliens and adance permission to return was given 192 lawfully esident aliens who otherwise would have been indmissible upon return to the United States follow-

ng brief absences abroad.

Aliens admitted to the United States to particiate in exchange programs cannot return to the Inited States as immigrants for 2 years after heir exchange status has ended. During this eriod they must reside in the country of former esidence, or nationality, or in another foreign ountry adjudged by the Secretary of State to ave served the purpose and intent of the Mutual Education and Cultural Exchange Act of 1961. Vaivers of this requirement may be granted only there it is found to be in the public interest and is established that compliance with the 2-year residence requirement would cause exceptional hardship to the alien's United States citizen or lawfully resident alien spouse or child, or upon request of an interested government agency. This provision of law is administered strictly and in cooperation with the Department of State. Only 672 such waivers were granted during the year out of a total of 1,277 received.

Service Operations Outside the United States

Service officers stationed abroad continued to render invaluable assistance in detecting and preventing fraud and misrepresentation in Service matters and other violations of law, including fraudulent and counterfeit document operations, and alien smuggling. Normal operations, which include the adjudication of various types of applications and petitions filed by United States citizens and aliens residing abroad, were carried out in addition to the pre-departure inspection of travelers destined to the United States from various points in Canada, Bermuda, and the Bahamas. Service offices are maintained in Europe, the Far East, and Mexico.

Service officers continued to interview and process refugee-escapees in Europe, and Chinese refugees in Hong Kong for parole into the United States. Additionally, agricultural workers, sheepherders, and other temporary workers are screened and indoctrinated by these officers prior to the aliens' departure for the United States.

BORDER PATROL AND INVESTIGATIONS

Deportable Aliens Located

Service officers located 86,597 deportable aliens during 1964, a 2-percent decrease from 1963. The principal factors in this reduction were the decline in the number of Cuban nonimmigrant violators, and the number of alien crewmen who were found to be deportable on technical grounds when their vessels remained in port beyond the 29-day statutory limit—12,083 as compared to 17,610 last year, a 31-percent decrease. Willful crewmen violations increased 14 percent to 2.171. The 153 stowaways found is the lowest number since World War II. Of the 45,082 aliens legally admitted who violated their status of admission, 33,618 were visitors, 2,753 students, 1,818 agricultural workers, 5,417 other nonimmigrants, and 1,476 immigrants. Illegal entrants increased 9 percent to 25,515, of whom 22,620 were Mexican nationals.

The following table compares the number of

deportable aliens found in 1963 and 1964:

Nationality	Fiscal	years	Percent
	1963	1964	change
Mexican	38, 866	43, 789	+13
Cuban	4, 798	2, 057	- 57
Canadian	7, 454	8, 219	+10
British Honduran	1, 605	1, 770	+10
Other Western Hemisphere	5, 209	5, 449	+ 5
Chinese,	3, 066	3, 515	+15
All other	10, 104	9, 715	-4
Total except technical violators	71, 102	74, 514	+5
Technical violators (alien crewmen)	17, 610	12, 083	-31
Total aliens found	88, 712	86, 597	-2

Mexican aliens accounted for 59 percent of the number found. Principal contributing factors to the 13-percent increase in the number of Mexican nationals found to be here unlawfully were the expected termination of the "Bracero" program (the agricultural labor program whereby laborers have been imported under Public Law 78 since 1949) and the far reaching effects of a continued severe drought in Mexico, accompanied by a marked deterioration of the ranch economy there.

These factors probably will result in continued efforts to cross the border surreptitiously. The significant drop in the number of Cuban aliens

found was principally in the nonimmigrant visitor class, as that category decreased 70 percent from 3,432 last year to 1,029. Surreptitious entry by Cubans decreased slightly, from 589 to 540.

Border Patrol officers located 1,196 deportable aliens who had been induced or assisted to enter unlawfully or who had been unlawfully transported after illegal entry. This was a 59-percent increase over last year and was accompanied by a 47-percent rise to 513 in the number of persons located who had violated the statutes relating to the inducing, snunggling and transporting of unlawfully entered aliens.

Four hundred-forty smugglers and 1,106 aliens whom they assisted were located along the Mexi can border. While many of the smuggled aliens were seeking employment on farms and ranches in nearby areas, it was noted that a considerable number were destined to places such as Chicago and the States of Oregon, Wyoming, and Nev York. In a number of instances, the aliens wer concealed in automobile trunks by the smugglers Two aliens entered by being hidden in the tank o a water truck. In another case, 16 Mexican alien were induced to enter with their nonimmigran documents to work unlawfully for a citizen farme who told them he would arrange for their lawfu entries as immigrants while they were working for him; each was to pay him a \$50.00 fee. naturalized citizen paid \$2,200 to three individual to smuggle her son, an Italian, across the Mexical border and to transport him to New York.

In five cases involving 48 aliens, aircraft wer used or scheduled to be used to transport the alien to their destinations. Analysis of these five case indicates that smugglers and transporters are at tempting to facilitate their illegal activities b transporting aliens who are violators of nonimmi grant status rather than surreptitious entrants For example, in July 1963, 35 aliens of a group of 37 who were intercepted at Deming, New Mexico had entered as nonimmigrants and were awaitin arrival of a chartered aircraft for their trip t Oregon. Civil penalties are provided for flyin across the border without advance notice bein given. Continued efforts to control entry by pr vate aircraft resulted in establishing 110 violation as compared to 86 during fiscal year 1963.

The Leon Airlift and Presidio-Ojinaga Train lift, utilized throughout the year, were especiall useful during a July-August 1963 upsurge of bor der violations just mentioned. By transportin adult Mexican male aliens, many of whom we without funds, by air to Leon, Guanajuato, and b train to Chihuahua, Chihuahua, they were release nearer their homes, and their illegal return to th United States was discouraged.

To date, 56,301 aliens have been transported of the airlift. Last year only 5 percent of them wer again found unlawfully in the United States. O 53,913 Mexican aliens transported by train to Chinahua, to date, only 1,618, or 3 percent, unlawfully returned to the United States last year.

Service Aircraft. The Service continues to use aircraft in its enforcement efforts. Light observablon aircraft are assigned to every sector on the Mexican border, in Florida, and along the Canadian border. During the year, these aircraft, in radio communication with ground crews, assisted in locating 3,699 deportable aliens. The use of 'drag trails' made this type of operation more effective. Tractors were procured during the year to maintain over a thousand miles of these trails along the Mexican border. Observers are able to detect tracks left by aliens and direct the ground grews to intercept.

During the year, transport aircraft logged 11,801,315 passenger miles, without incident, carrying aliens from all parts of the United States to and between staging areas on the Mexican border. In addition, 2.640,832 passenger miles were logged transporting prisoners for the Bureau

of Prisons.

Fiolators of Other Laws. In carrying out their responsibilities, Border Patrol officers encountered violators of various city, State and Federal laws, and turned them over to appropriate agencies. Narcotics valued at \$251,692 were confiscated, and property valued at \$593,005 was seized or recovered.

In one case \$130,000 in cash was recovered and the absconding bank employee was arrested before the crime was reported to the police in Canada. In another case an unreported robbery and murder in Canada was solved by the arrest of an alien near Havre, Mont. Cooperation with other enforcement agencies is carried on at all levels and as a direct result, 3,248 deportable aliens were turned overto the Service.

Deserting Creemen and Stowways. At sepports, in the Great Lakes area, and along the St. Lawrence Seaway. Service officers continued to emphasize programs geared to the prevention of illegal entries of deserting crewmen and stowaways, and the apprehension of such violators before they established footholds and equities in the United States. At the port of Norfolk, Ya., alone, 50

Part of the moncy seized as result of check of passengers at bus station.

crewmen in the act of deserting or absconding were apprehended and removed from the United States on the vessels on which they arrived. At Duluth, Minn., only 14 crewmen attempted to desert or abscond from a total of 220 overseas vessels arriving at that port. All 14 were apprehended before they could leave the area and all departed on the vessels on which they arrived. At the port of New York, Service officers located 1.770 crewmen who had deserted their vessels. Officers at the Massena, N.Y., Border Patrol Station boarded 224 vessels and verified the departure of 624 malafide crewmen who had been denied landing privileges and ordered detained on board. Since the opening of the St. Lawrence Seaway, there have been no successful desertions in this 9.29.9

As a result of these stringent Service enforcement measures, crewmen desertions declined 4 percent and landed stowaways found in the United States and unreported stowaways found on board vessels declined 8 percent compared to 1963.

An illustration of the effectiveness and field coordination of these programs is found in the following case. Information was received from the Hong Kong office that Fong Chau, crewman who deserted the M/V Rochinhon May 10, 1963, and Fai Po Yeung, who deserted the M/V Sumatra on July 30, 1963, were alleged to be pro-Communist. Fong Chau was apprehended on July 3, 1963, and Fai Po Yeung on January 20, 1964, by Service investigators at New York. Deportation proceedings were instituted.

Caribbean Program and Problems

The Caribbean Investigations Coordination Program is designed to combat the entry into the United States of Latin American alieus in the subversive, criminal, immoral and narcotic classes. Principal tool of this program is an index maintained at the Miami Office. Approximately 8,000 new reference cards were added to the index during the year, bringing the total to approximately 150,000 including 374 suspected unregistered Latin American foreign agents. During the year,

Immigrant Inspector briefing Investigator on possible desertions.

110,200 checks were made of the index, and records were located in about 10,000 cases. As a result of these checks, 340 subversive, criminal, immoral and narrotic investigations relating to Latin Americans were initiated.

Investigations of Cubans were conducted in 2,193 cases, including 669 suspected of being subversive, and 92 alleged to be of the criminal, immoral and narcotic category. Some of these cases involved stowaways. One such case was that of Moises Salti-Marchelo who arrived at New Orleans, La., on December 26, 1961, as a stowaway on the SS Theoforos and was paroled into the United States as a Cuban refugee. Exhaustive investigation produced evidence that he had been an informant for the Cuban police in 1961. His parole was revoked and he departed from the United States at Miami on December 31, 1963.

Foreign-Born Law Violators

Internal Security and the Foreign Born. The Service has continued its hard-hitting, nationwide anti-subversive effort to detect, exclude, denaturalize and deport foreign-born subversives.

Investigations under the border programs resulted in the exclusion of several important subversives among whom were Jesus Coello Avendano, Director of the Federal Schools of Chihuahina, Mexico, who was involved in a scheme to provide Mexican aliens with fraudulent Mexican Government credentials for use in illegally entering the United States. Another was Edwin M. Alpin, former chairman of the Toronto, Canada, Peace Council.

Among subversive aliens deported during the year were Chen Kung Cheng, a suspected Panamanian Intelligence Agent for Communist China, Roger Tetreault, a member of the terrorist Quebec Liberation Front, and Antonio Rodriguez-Echazabal, former Cuban Ambassador to Haiti and Guatemala, and Minister to Pakistan. Ordered deported was Antonio Hector Millan-Garcia, Mexican member of the Fair Play for Cuba Committee in Los Angeles, in whose case litigation is still pending. Several subversive aliens departed from the United States while under investigation. Among these were John Cairneross, formerly chairman of Romance Languages at Western Reserve University, Cleveland, Ohio, and Stanislaw Dychowski, former member of the United Polish Worker's Party and suspected espionage agent.

Anti-Orime Operations. A consistent goal of the Service in the area of anti-crime investigations has been the exclusion, expulsion and denaturalization of alien or naturalized racketeers known to be leaders of the underworld or of prime importance to the syndicated crime and vice existing on a national or international scale. Generally these individuals are deeply rooted in the life of the Nation and their activities concealed behind legitimate persons and enterprises. This increases the difficulty in bringing these proceedings to a successful conclusion. During the year, 8,007 investigations of such cases were completed and 661 were deported or required to depart.

Results of this program are reflected in the following cases: Ernesto Barese, international narcotics trafficker and an associate of the late "Lucky" Luciano, was deported to Italy on May 1, 1964, for the third time in his sordid criminal career, following his completion of a term of imprisonment for illegal entry. He had amassed a long criminal record and had been deported previously on criminal charges. Angelo Frank Bruno. former Detroit and Kansas City hoodlum who was previously deported to Italy on narcotic charges. arrived at San Juan, Puerto Rico, October 30. 1963, as a passenger on the M/V Liana claiming to be David Michael William Barnes, a British subject. He was removed from the vessel, ordered excluded, and was deported to Italy on January 25, 1964.

Umberto Bauco, wanted by Italian authorities for embezzlement, fraud, bankruptcy, and issuing worthless checks, evaded Canadian authorities and fled to the United States. His apprehension followed, and he was deported to Italy on August 29 1963. Walter Sekaly, a Beaumont, Tex., night club owner and a reported central vice figure in that area, was the subject of a long and compre hensive investigation which resulted in an order or deportation being issued in June 1964. Border criminal identification programs continued with emphasis on close liaison between Service investi gators and responsible law enforcement officials or both sides of the borders. There were 1.858 look outs posted. As a result of such lookout notice 267 aliens were rejected or excluded.

Frauds. Investigations of possible immigration frauds were conducted during the year, numbering 4,333. The investigation of persons involved in these schemes include aliens and other persons who engage in criminal conspiracies to obtain false documentation with which to avoid the provision of the immigration laws relating to the quota and exclusion of persons with criminal or immora backgrounds. Other methods included the ar ranging of sham marriages between aliens and United States citizens to gain nonquota benefits the furnishing of fraudulent employment assur ances to obtain quota preferences and in Chines fraud cases, the use of false or spurious identitie to claim United States citizenship. One shan marriage case involved Richard R. Cody, a Lo Angeles attorney who reportedly had arranged sham marriages for \$1,350, with \$1,000 being paid to the "bride" and \$350 for himself. His convic tion resulted in a sentence of 2 years imprisonmen on two counts of conspiracy as well as probation for 5 years on other charges.

In another case, Everardo Abelardo Martinez Larrndet, a former owner and operator of a trave, agency in New York City received a sentence of iyears imprisonment on conviction of conspiracy after fleecing aliens in connection with preparation nd submission of fraudulent employment assur-

During the year 2,579 Chinese who had entered is country through false claims to United States tizenship confessed and revealed their true identies. These confessions exposed 5,911 other Chisee persons who entered in the same manner and ade 2,003 "slots" unavailable for future use.

Files at the Fraudulent Document Center at El aso have grown at the rate of 100 cases a month nce its creation in April 1958. This growing servoir now contains 9,123 cases relating to Mexan aliens who have backed up false claims to merican citizenship by producing fraudulent ocuments. Information at the Center is availole to all Service offices and other Government zencies having a need for it on a 24-hour, 7-day There are positive responses to inquiries in bont 12 percent of the cases. Illustrating the unction of the Center is the case of an applicant the American Consulate in Juarez, Mexico, who resented a birth certificate showing birth in the fuited States. Although no record of this person as found, the records disclosed that the names of ie same parents appeared on a birth certificate sed some time previously by another person who ad falsely claimed citizenship. With this inforation, the consular officials were able to deterine that their applicant was the wife of the biect of the record at the Center and that both ere born in Mexico. The Center also initiated inquiries from analyses

records. For example, information furnished a Phoenix Border Patrol Station on January 10, 364, resulted in finding nine Mexican aliens dsely claiming citizenship. Information furished Del Rio on March 15, 1964, aided in the

iscovery of eight false claim cases.

Criminal Prosecution

The Service presented 7,154 cases to United tates attorneys for violations of the immigration of nationality laws. 3,297 prosecutions were uthorized. Of the 3,076 cases disposed of, 94 per-nt resulted in convictions with aggregate senares of 31,660 months and fines of \$98,906.

There were 1,820 aliens convicted of reentry ithout permission (8 U.S.C. 1326), after deportion, and 265 persons convicted for document rands (18 U.S.C. 1546). The average sentence it these cases was 11.4 months. Of the 290 persons onvicted for nationality violations, 286 cases were or false representations as a United States

itizen (18 U.S.C. 911).

Revocation of Naturalization. Among the lost difficult cases processed by investigators are used in which revocation of naturalization is sught because the naturalization was procured grouph fraud. After lengthy investigation, the aturalization of Domenico D'Agostino, Appachian "Crime Convention" delegate, was revoked y the U.S. District Court for the Western District of New York at Buffalo on January 13, 1964.

D'Agostino has filed notice of appeal to the Court of Appeals. He was born in Italy in 1889, entered the United States in 1905, returned to Italy in 1911, reentered the United States in 1921, and was naturalized on March 24, 1927. The order of revocation was based on concealment of marital record at the time of naturalization.

An exhaustive investigation of Anton Bimba, a Lithuanian-born Communist, resulted in a revocation suit being filed in the U.S. District Court for the Eastern District of New York at Brooklyn, N.Y. On December 17, 1963, Bimba, who was born in 1894 and entered the United States in 1914, was charged with having intentionally and deliberately concealed material facts concerning his arrest record at the time of his naturalization in 1927. In addition to membership in the Central Committee of the Communist Party, he has for many years edited the New York Lithuanian newspaper "Laisve", referred to by the Daily Worker as a "Lithuanian Communist Daily". The suit is pending.

John's Bathbeach' Oddo lost his fight to retain his falsely gained naturalization when his petition for writ of certiorari was denied by the Supreme Court on October 14, 1963. Oddo was born in Italy in 1903, entered the United States in 1907, and was naturalized in 1931. He compiled a record of 36 arrests beginning in 1919, and became one of the more notorious racketeers in the country. His "Cosa Nostra" ties were described in the

recent "McClellan Committee" hearings.

DETENTION AND DEPORTATION ACTIVITIES

The number of aliens deported in fiscal year 1964 under orders of deportation was 8,746, an increase of 1,292 over the number deported in 1963. Among those deported were 603 on criminal, immoral, and narcotic charges.

In addition to the criminals deported who are listed elsewhere in this report were Michele La Centra, who has a long criminal record including convictions for forgery, counterfeiting and extortion: Elizabeth V. Spedding, reported to have been the operator of a large call girl ring; and Maria del Carmen Moreno-Pato, who was convicted of crimes such as shoplifting, pocket picking, burglary, and smuggling marijuana into the United States.

Of the aliens deported, 89 percent had entered without proper documents or failed to maintain nonimmigrant status or entered without inspection. By nationalities, 5,191 were from Mexico, 534 from Greece, 493 from Canada, and 266 from the United Kingdom.

The number of aliens required to depart without the issuance of formal orders of deportation increased from 69,392 in the last fiscal year to 73,042. The three principal classes of aliens required to depart are crewmen who were technical violators because they remained longer than the time for which admitted, nonimpigrants who failed to maintain the status under which admitted and aliens who entered without inspection.

Of those required to depart 32,770 departed under safeguards, 43,675 were crownen technical violators, and 19,034 (principally Mexicans), were those who entered without inspection. The renoining 40,272 cases of persons who were required to depart consisted of 26,687 nonlimiting grands who failed to maintain status, 2,334 crownen, and 11,703 sucreptitious entrants. The number of those who violated status at entry by remaining longer or by accepting employment mereased by 18 percent over last year. The number of such violations increases as the number of nonlimingrants admitted increases.

Principal countries of nationality of the 40,272 aliens required to depart were 20,150 Mexico, 4,676 Cuba, 3,939 Dominica, Republic, 1,998 Canada and 1,530 United Kingdom.

One bundred fifty-two who had fallen into distress were removed from the United States at their own requests.

Forty mentally incompetent aliens were deported or removed. Up to the time of deportation approximately \$494,000 had been expended for their care in the United States. If they had continued to remain institutionalized at public expense, an estimated \$32,87,000 would have been disbursed for their maintenance and treatment during their expected lifetimes.

There were 11.426 aliens initially admitted to Service detention facilities and 19.372 to non-Service facilities. The detention facility at Tampa, Florida, was closed due to the cessation of transportation between Cuba and the United States.

Aliens Reiny Boarded on Plane for Departure to Mexico From Brownsville.

HEARINGS AND LITIGATION

Exclusion and Expulsion Hearings. The risin trend in the number of hearings conducted by Spt cial Inquiry Officers, which manifested its begin nings during 1963, continued through 196-Contrasted with a 3-percent decrease in exclusio hearings, the number of expulsion proceeding before Special Inquiry Officers continued to ris from 10431 in 1962, to 12,805 in 1963, and to 15,67 in fiscal year 1964, a 22-percent increase over 196-

In addition to the tremendous surge in receipt. Special Inquiry Officers were confronted with peplexing cases which were often complicated by the necessity of applying and interpreting novel legiprinciples. Typical is the recurring question whether a respondent returning from abroadmade an "entry" within the meaning of the imagration law, as it was recently and newly interpreted by the Supreme Court in the Fleaticas (734 U.S. 449). Similar problems came to light it respect to minors going abroad with or undedirection of their parents, raising the question whether, upon return, they made an "entry".

Difficult questions of citizenship and expatrition were often presented for determination by Special Inquiry Officers. For example, a hotl contested expulsion case, important in the light of service of a native-born American in the Castrarmy. The conclusion of the Special Inquir Officer as to expatriation and deportability we wentually upheld by the Court of Appeals and a firmed, without opinion, by an equally divided Sipreme Court (Marks v. Esperdy, No. 253, May 1-1964).

The effects of Section 4 of the Act of October 2, 1962 (P.L. 87-885), revising the basis for graning discretionary relief in the form of suspension of deportation to deportable aliens, continued the evident in the varying types and growing number of cases being presented to Special Inquir Officers for adjudication. Unsettled issues of land fact, arising from the new law, were frequented, considering the paneity of case precedent called for extended research, analysis and sifting of evidence, and an application of judicial acumer

During fiscal year 1964, L336 cases were referre to Congress for approval of orders granting supension of deportation as contrasted with 215 duing fiscal year 1963, and only 73 during fiscal year 1962. There is no indication of any future fallo in receipts of suspension cases.

Serious and contentious claims with respect the place of deportation continued to be presented particularly regarding countries in which the alie claimed he would be persecuted if deported them. To the long list of 35 countries concerning which such claims were made in fiscal year 1963, additional allegations of possible physical persecution.

rere made during 1964 in respect to Canada, India. Iacao, Netherlands, Nicaragua, Afghanistan, atvia, Pakistan, Holland, Malaysia, Germany, nd Venezuela. This plea always requiring an adidication on a case-by-case basis, was encountered requently in proceedings involving comparatively ecent arrivals who claimed possible physical perecution if deported to Yugoslavia or Poland.

The regulations promulgated in January 1962. nposed additional responsibilities upon Special nquiry Officers to determine applications, by repondents in expulsion proceedings, for adjustent of immigration status under Sections 245 and 49 of the Immigration and Nationality Act. buring fiscal year 1964, the number of such cases ompleted by Special Inquiry Officers was 479 as ontrasted with 421 during the previous year.

The factual determination in these cases often ecessitates lengthy hearings, a development which lso frequently manifests itself in cases involving ther types of discretionary relief applications. contributing factor, indicating the gravity and omplexity ascribed to expulsion cases in general, as the increase in the number of hearings in hich either the Government or the respondent. r both, were represented by counsel.

Trial attorneys represent the Government in ormal exclusion and expulsion hearings before pecial Inquiry Officers, serve as legal consultants the field office staffs, and when requested, assist Inited States Attorneys in civil and criminal cases rising out of the immigration and nationality

The trial attorneys prepared 9,535 cases for resentation before Special Inquiry Officers (1,458) ore than in 1963). They made appearances at ,859 hearings (832 more than in the previous ear). There was a 35-percent increase in appearnces where application for discretionary relief as the sole issue, indicative of the expanded scope f the regulations promulgated January 22, 1962. The two attorneys who represent the Service beore the Board of Immigration Appeals reviewed ,003 appellate cases, 36 percent more than last

They prepared for presentation to the board of Immigration Appeals 429 matters and resented 277 oral arguments, 97 percent and 48

ercent, respectively, over last year.

Early in fiscal 1964 there was prepared a sumary of major judicial decisions construing certain rovisions of the Immigration and Nationality ct. The summary was furnished the Subcomnittee on Immigration of the Judiciary Committee f the House of Representatives at its request, as as also a supplement updating the summary rough June 30, 1964. This resume will serve not nly the purposes of the Committee but its distriution throughout the Service makes available for sady reference significant judicial interpretations f various sections of the Act.

Another important accomplishment was the bmpilation for internal use only, of a Handbook or Trial Attorneys, printing of which is now in

progress. Supplements will be issued by the General Counsel to keep the work current.

Litigation. In the annual report for 1963 it was pointed out that it was then too early to appraise the full impact of the Act of September 26, 1961 (Section 106, I & N Act; 8 U.S.C. 1105(a)), which was designed to eliminate district court review of administrative deportation orders by requiring the filing of petitions for review direct to the United States Courts of Appeals. The question of the scope of that law was then pending before the United States Supreme Court in Foti v. LVS (certiorari granted 371 U.S. 947). On December 16, 1963 that Court rejected the narrow reading of the statute adopted by some of the lower courts. The Supreme Court declared (375 U.S. 217) that discretionary relief, authorized under regulations to be considered in a deportation proceeding is merged in the final deportation order and that denials of such relief during the course of the deportation proceeding are reviewable only in the Courts of Appeals. Left open was the question whether the denial of a motion to reopen the deportation proceeding likewise is reviewable only by the Courts of Appeals. On this issue the Supreme Court has granted certiorari in Giova v. Rosenberg (No. 15 Misc., October Term 1963) which should be argued and decided during the Court's October 1964 Term. An affirmative answer to the question would further reduce litigation in the district courts.

At the beginning of fiscal year 1964 there were 40 Section 106 actions pending in the United States Court of Appeals, 43 actions were filed and 42 disposed of, leaving 41 pending at the close of the year. Those courts considered 86 cases in the preceding year. Only a few of all the decisions rendered were adverse to the Government, reflecting improvement in the administrative enforcement and decisional processes during the last few

Petitions for certiorari were denied by the Supreme Court in Fang v. Kennedy (375 U.S. 833), on the question whether Nationalist China properly was deemed the country of nationality of a Chinese alien for the purpose of the deportation statute; and in Zupicich v. Esperdy (376 U.S. 933 motion for leave to file petition for rehearing denied, 377 U.S. 913), wherein the lower court held that the denial of a stay of deportation was not arbitrary or capricious where the evidence did not establish the appellant would be physically persecuted because of his religious beliefs and since possible incarceration for 1 or 2 years for deserting a vessel is not physical persecution within the meaning of Section 243(h) of the Act. In *Merica* v. *Esperdy* (376 U.S. 560), reciting the definition of deportation in earlier law, which is carried forward in the present statute, the Supreme Court found that an alien who had left the United States while an order of deportation was outstanding against him had been deported. In all three of the above cases briefs in opposition to the petitions were prepared in the office and at the direc-

tion of the General Counsel.

The decision of the Supreme Court in Schneider v. Rusk (377 U.S. 163), is noted under Loss of Citizenship in this report. In Marks v. Esperdy (377 U.S. 214), wherein an attorney on the staff of the General Counsel prepared the brief and presented the oral argument on behalf of the Government, the Supreme Court upheld the constitutionality of Section 349(a) (3) of the Immigration and Nationality Act prescribing loss of United States citizenship upon service in the armed forces of a foreign state.

In Costello v. INS (376 U.S. 120), reiterating and applying the principle that deportation statutes must be narrowly construed, the Supreme Court ruled that under the language in Section 241(a)(4) of the Act relating to deportation upon conviction for two crimes involving moral turpitude, a deportation order was not properly entered against a person who was a naturalized citizen at the time of conviction, even though his naturalization was later revoked for fraud.

A petition for certiorari is pending in the Supreme Court in Texas State AFL-C10 v. Kennedy, wherein the lower court decision was affirmed by the Court of Appeals (330 F. 2d 217; C.A.D.C., 1964) which found that the plaintiffs did not have legal standing to challenge the valid-

ity of the alien commuter program.

ALIEN ADDRESS REPORTS

In accordance with the requirements of the Immigration and Nationality Act, 3,335,591 aliens filed address reports with this Service in January 1964. This is an increase of 98,907 reports over last year. The three States with the largest number of aliens reporting were: California, 767,022; New York, 608,120; and Texas, 246,280. Other States with large alien populations were Illinois, New Jersey, Florida, Massachusetts, Michigan,

Pennsylvania, and Ohio.

Of the 2,966,732 resident aliens reporting, the largest number were of Mexican nationality (611,950), followed by Canada (357,111), United Kingdom (257,896), Germany (247,645), Italy (225,320), Poland (127,459), and Cuba (100,847). Residents of other nationalities were under 100,000. Most Mexican nationals lived in California and Texas; Canadians in California and Michigan; British in California and New York; Germans in California and New York; Italians in New York and New Jersey; Poles in New York and Illinois; and Cubans in Florida and New York.

CITIZENSHIP

Naturalizations

Certificates of Naturalization Granted. The oath of allegiance declaring support and defense of the Constitution and the laws of the Unite States against all enemies foreign and domestiwas administered to 112,234 persons who becam new citizens in 622 courts throughout the Unite States last year. Both the number of application for naturalization received, and the number of per sons naturalized have decreased somewhat sind the unusually high naturalization volume of fiscal year 1961. Among those who became citizer through naturalization were 16,646 German na tionals, 12,323 Italians, 9,826 British, 9,479 Can dians, 5,213 Mexicans, 4,045 Chinese, 3,061 Jap. nese, and 3,029 Israelis.

Overall, three-fourths of the new citizens we naturalized under the general provisions of the nationality laws requiring 5 years' residence the United States. The remaining naturalize persons, for the most part, were the spouses ar children of United States citizens, who are give special benefits under the law. Among the spouses were 4,372 Germans (26 percent of a Germans naturalized), 1,940 Japanese (63 percer of all Japanese naturalized), and 591 Filipin (26 percent of all Filipinos naturalized).

During recent years, a considerable number : children born in Germany, Greece, Italy, Chin Japan, Korea, and the Philippines have been adopted by United States citizens and brought this country. Thus, it is not surprising that mar of the 9,056 persons naturalized as the children United States citizens formerly owed allegian

to one of these countries. Petitions for Naturalization Denied. Of the 2,309 petitions denied by the courts, 2,015 eith were withdrawn or not prosecuted by the petitio ers. However, most of the withdrawals were m tivated by knowledge that the petitions were like to be denied on one of the grounds specified in t law. Sixty-eight petitioners were refused cizenship because they lacked proficiency in to English language, while 50 others failed to quali because of an insufficient knowledge and under standing of this country's history, Governmen

A New Citizen Clutches the American Flag, After Being Naturalized.

nd Constitution. Many of the unsuccessful petiioners who elected not to prosecute their petitions frained solely on account of their inability to atisfy one or the other of these educational preequisites, and may be expected to renew their pplications after further study. Twenty-three dditional petitions were denied for lack of good oral character, lack of attachment to constituional principles, or because the petitioner was nder a final finding of deportability. The remaining denials were on technical grounds such as failure to meet residence or special requirements of the naturalization lace.

Derivative Citizenship

Certificates issued. Exceeding by 2 percent the igh volume of last year, then unequaled in Serve history, were the 35,221 certificates of citizenhip administratively issued to persons who equired citizenship at birth abroad to United states citizen parents, or who derived such status hrough the naturalization of their parents or mariage to a citizen.

The exceptionally heavy caseload in this area luring the past few years may be attributed in art to constructive informational and operational orgrams of the Service. Under one programs each newly naturalized person is promptly informed of his children's derivative rights and the availability of the certificate, and similar advice and assistance is readily available to other types of derivative citizens at our field offices. Procedures have been streamlined, consistent with the requirements of the law, to assure an efficient, expeditions disposition of the cases, with benefit to the Service and applicant alike.

Noteworthy in the operational area has been the Service effort at various military encampments in the United States, where officers have worked in close cooperation with the military authorities to plan for the group issuance of certificates to the children of servicemen who have returned from overseas duty. Many impressive and meaningful ceremonies have been conducted in conjunction with these proceedings at the military installations. The efficacy of the programming is strikingly demonstrated by the fact that the elapsed years between acquisition of citizenship at birth abroad and the issuance of the certificate has steadily declined from an average of 15.8 years in 1960 to 9.3 years in 1964.

Effectively implemented during the year was a special program to meet the citizenship needs of Panamanian and Canal Zone residents. Many persons who were born and have always resided in those areas acquired United States citizenships at birth, and are qualified for certificates of citizenship. However, since the Immigration and Nationality Act precludes delivery of the document

Two Derivative Citizen Children Receive Certificates at Military Installation.

ontside the United States, these citizens have never been in a position to obtain one. Learning that a considerable number of them planned to vacation in the United States for this secondary purpose, the Service took prompt action to assure the success of their mission.

A Service representative visited Panama and the Canal Zone to offer advice and assistance and to arrange for an advance submission of the applications to the appropriate field offices. Problems which could conceivably delay timely disposition of the cases were foreseen and resolved in advance and, generally, the foundation for an effective program was laid. Applications were processed upon receipt and, where necessary, field offices communicated directly with the applicants, or took other action to assure that each case would be prima facie ready for hearing immediately upon the applicant's arrival in the United States. So efficient were the preliminary planning and action that, in most instances, hearings on the applications were conducted when the applicants appeared at the field offices, and a great majority of the 691 certificates issued under the program were delivered immediately thereafter.

Certificates issued to persons who acquired citizenship at birth abroad totaled 17,194. A breakdown according to country of birth discloses that 4,250 of these citizens were born in Germany, 2,317 in Mexico, 1,537 in the United Kingdom, 1,429 in Canada, 904 in Italy, 800 in France, and the remainder in a number of other foreign countries. It is interesting to note that the greatest number of births occurred in Germany where many servicemen are stationed with their wives.

A total of 18,127 certificates were issued to persons who derived citizenship through the naturalization of their parents or as a result of marriage to a citizen. Numbered among them were 4,086 born in Germany (reflecting one again the considerable number of servicemen assigned to that country), 2,357 born in Canada, 1,588 in Italy, and 1,428 in the United Kingdom. Of interest is the fact that most of the 712 natives of the U.S.S.R. who received such certificates derived citizenship during the period 1910–29, whereas the great majority of the remaining certificate recipients derived citize their citizenship within the past 44 years.

Certificates canceled. Certificates of citizensing may be administratively canceled if persons obtained such documents through fraudulent or illegal claims to citizenship acquired at birth abroad or to derivative citizenship in the other recognized forms. Of the 578 certificates canceled, 575 falsely claimed birth abroad to citizen parents. Five hundred and sixty-seven of these cancellations involved persons born in China, attesting to the effectiveness of the Chinese confession program out of which they evolved.

Reputriation. Under the statute, native-born women who married aliens prior to September 22, 1922, lost their United States citizenship. Depending upon the circumstances involved, these

women must take affirmative action to regain eithe the privileges of citizenship, or citizenship statu itself. In the past 7 years all but a few of th citizens repatriated have been women in this cate gory. In 1964, there were 276 such repatriation and three under private law. As might be antici pated, the number of such repatriations is declin ing each year, and this year was 22 percent lowe than in 1963 and 47 bereent lower than in 1958.

Nationality Applications. Fiscal year 1964 als registered a heavy demand for other importan nationality documents and benefits, which ar proached the substantial volume of 1963. Amon the 8,588 cases processed and adjudicated durin the past fiscal year were included applications for new naturalization and citizenship certificates, c new declarations of intention, to replace the orig inal documents which had been lost, mutilated, o destroyed. Others involved the issuance of thes documents in another name which had been newl acquired by the holder through marriage or appropriate legal proceedings, Naturalized persor also sought special certificates of naturalization for use in obtaining recognition of their citizer ship by foreign states. A considerable number of applicants requested certified information from naturalization and citizenship records, needed for compliance with State and Federal statutes, for us in legal proceedings, or for some other legitimat purpose.

Loss of Citizenship

During 1964, 2,321 persons were held to hav expatriated themselves through actions taken in foreign state. Of these, 1,366 voted in foreig elections, were naturalized, swore allegiance to served in the armed forces of a foreign state. Twhundred and thirty-four renounced United Staticitizenship, and 701 naturalized citizens were expatriated by continuous residence in a foreign state, established after their naturalization in the country.

This last ground for expatriation is no long valid since the Supreme Court on May 18, 1964, Schneider v. Rusk, 377 U.S. 163, struck down it statutory provision providing for loss of nationa ity solely through extended foreign residenc. The court found the provision unconstitutional ithat it discriminated against naturalized citizen Persons whose loss of citizenship has been affected by the decision may apply to this Service to have their records corrected, if they are in the Unite States. If abroad, they should seek similar remedial action by the State Department by applying to the nearest American consulate.

The citizenship of naturalized citizens may als be revoked in judicial proceedings where it appear that their admission to citizenship was illegal of fraudulent in nature. The burden of proof in posed upon the Government is heavy in these cases but nevertheless there were four cases in which revocation was ordered in 1964.

Related Nationality Activities

Citizenship Responsibility. The function of he naturalization officer is not limited to action on ases of aliens applying for citizenship or other ationality applications, processed administraively or in the courts. He also cooperates with, nd coordinates much that is done by, patriotic nd public-spirited citizens and organizations have ng a special interest in fostering citizenship esponsibility. Thus, each year, these officers plan nd participate in impressive naturalization cere nonies and other meaningful exercises on "Cit zenship Day" when newly naturalized citizens, as vell as the new voting citizens are honored, "Law Day" when the fundamental relationship of the aw to citizenship responsibility is stressed, and on nany other occasions affording a suitable setting or furthering good citizenship.

The year brought with it the unique opportunity or an estimated 30 million people to view, many or the first time, a court proceeding in naturalzation. With the fullest cooperation of the Servse, a naturalization proceeding conducted in the Juited States District Court at San Diego was limed by the National Broadcasting Company. Thereafter, on June 9, this impressive ceremoyras presented by the company as one of the most important sequences in its televised "Project 20" rogram entitled "The Red White and Blue".

Citizenship Education. The statutes require nost applicants for naturalization to have an effective knowledge of English and, without exception, knowledge and understanding of this country's istory, Government, and Constitution. Accordagly, activity designed to assist and encourage mmigrants in their preparation to meet these educational prerequisites is a major responsibility of he Service.

In fulfillment of this responsibility, the Service ande available to local public schools the names and addresses of 155,321 immigrants who arrived uring 1964, so that the schools could extend to the ewcomers an invitation to attend English and itizenship classes. Similar information pertaining to 60,285 actual applicants for naturalization was also furnished the schools. Supplementing he school program were the home study courses ponsored by the Service, which were utilized by \$707 prospective citizens.

During the year, the naturalization officers coninued to be an effective force in the realization of he educational objectives. Acting in a liaison apacity, they offered maximum cooperation to he school authorities in the establishment and anintenance of citizenship classes and, through heir frequent visits to the classes they did much of encourage the students to continue their efforts ward the goal of citizenship. It is worthy of tote that 92,360 candidates for naturalization atended classes during the past year and that. Il but two States, classes were available. The reatest enrollment occurred in New York 30,343), California (16,494), Illinois (9,337), Massachusetts (5,306), and New Jersey (4,272).

The Federal Textbook on Citizenship published and distributed by the Service, again was used extensively in public school classes. A total of 146,040 copies of the various parts of the textbook were distributed by the Service during this past year.

A notable development in the area of study and instructional material was the recent publication and distribution of "Our American Way of Life", "Our United States", "Our trovernment", and a related "Teacher's Guide", which comprise the *Beccanning a Citizen Series* a new unit of the Federal Textbook on Citizenship, which will supplant 24 small booklets formerly included in the textbook series.

These new texts were published by the Service in collaboration with outstanding educators from all over the United States, and only after they had been thoroughly tested by use in citizenship classes in many parts of the country. The Service is convinced that the use of these publications will materially advance the objectives of citizenship education and training, a conviction that has been strengthened by the already tremendous demand for the new textbooks.

ADMINISTRATIVE SERVICES

Personnel. Employee development and training during fiscal year 1964 included in-Service, out-Service, and foreign official programs. In-Service training consisted of 13 principal programs of instruction some of which were conducted more than once. Seventeen sessions of these programs were completed by 336 supervisors, journeyman officers, records personnel, and port receptionists. All but the port receptionists were trained at the Officer Development Center. Los Fresnos, Tex. Employees enrolled in the Extension Training Program completed a total of 986 home-study courses. The regions conducted a large number of short training courses in which a total of 16,844 completions occurred throughout the fiscal year (some employees attended more than one session).

The Border Patrol Academy conducted an FAA Peace Officers Refresher Course for 17 Federal Aviation Agency Peace Officers who are responsible for protecting American aircraft, passengers and crew members during flight. Sixty-eight employees completed the training course, including conferences and seminars outside the Service.

A total of 66 foreign officials from Iraq, Saudi Arabia, Vietnam, Brazil, Iran, United Arab Republic, Afghanistan, Sudan, Trinidad-Tobago, St. Lucia Great Britain, Tunisia, Australia, Bolivia, Korea, Liberia, Somali Republic, Indonesia, Venezuela, India, and Mexico received training in the Service's enforcement and examination operations, as well as the records administration program.

Incentive Awards. During the year, 549 emplovee suggestions were received, of which 78 were adopted. There were 514 persons recognized for superior performance or special acts. Further, 109 employees were granted quality increases.

Building Program. In line with the continuing Service program to improve and modernize the physical facilities, 10 new border stations, and 10 new Border Patrol Stations were completed by the Service on the northern and southern borders. In addition, the General Services Administration completed Border Stations at Jackman, Maine, Massena, N.Y., and Pembina, N. Dak. In Detroit the new District Office and Border Patrol Headquarters were occupied during the year. Miami District Office moved into a new Federal Office Building.

Records and Statistics. During 1964, 3,259,751 documents were added to the central index required by Section 290 of the Immigration and Nationality Act. This index now contains approximately 37,000,000 index cards. All types of searches of the index amounted to 607.415 for the

A well-established work measurement system provided the basis for the manpower utilization program. All work performed by Service officers is recorded in terms of work units, and measured in relation to the time it takes to do the work. This information is used at every organizational level to plan work, avoid or get rid of backlogs, determine trends, evaluate new procedures and improve work methods. Statistical information on immigration, naturalization, deportation, and passengers manifested is compiled and interpreted for use in judging the effectiveness of the laws administered by the Immigration and Naturalization Service as they relate to numerical data and for use in demographic, transportation, and other studies by other Government and private agencies.

Management Improvement Programs, A pilot operation for mechanized visa processing was suc-

cessfully installed in the New York District Office This process has led to much faster and more a curate processing of visas at a lower overall co to the Service. This procedure is now being e: panded to other offices. A Service-wide study of the use, distribution, age and other major cha acteristics of dictating and transcribing machine led to improvements in the use of such equipmen

Selectadata Being Activated to Mechanically Proci Visas.

TABLE 1. IMMIGRATION TO THE UNITED STATES: 1820 - 1964

From 1820 to 1867 figures represent alien passengers arrived; 1868 through 1891 and 1895 through 1897 immigrant aliens arrived; 1892 through 1894 and from 1898 to the present time immigrant aliens admitted.

^{1/} An innigrant is an alien admitted for permanent residence. A nonimmigrant is an alien admitted for temporary residence. Returning resident aliens who have once been counted as immigrants are included with nonimmigrants, although the immi-

gration laws define such aliens as immigrants 2/ Prior to Act of September 22, 1999, all sons or daughters of U. S. citizens over 21 years of age were classified as fourth
preference quota. Adopted sons and daughters with petitions approved prior to September 22, 1959, remained in fourth preference

Prior to Act at september 27, 1959, included only children under 21 of resident aliens. Adult sons or daughters of resident altens were classified as monpreference quota-

Prior to Act of september 22, 1999, "secretion as non-preference quota.
 Includes 1 desplaces persons in 1962 and 1 in 1991 shows extatus was adjusted under Sec. 4, Displaced Persons Act of 1968
 Class established by Act of september (e. 1961)
 Class established by Act of september (e. 1961)

^{6/} Class established by Act of September 26, 1961 2/ Includes 1 foreign government official in 1960, a in 1961, 3 in 1963, and 2 in 1964, whose status was adjusted under

TABLE 13. IMMIGRATION BY COUNTRY, FOR DECADES: 1820 - 1964 1/

From 1820 to 1867 figures represent allen passengers arrived; 1868 to 1891 inclusive and 1895 to 1897 inclusive, immigrant allens arrived; 1892 to 1894 inclusive and from 1898 to present time immigrant allens admitted. Date for years prior to 1906 relate to country whence allen came; thereafter to country of last permanent residence. Because of changes in boundaries and changes in lists of countries, date for certain countries are not comparable throughout.

Not specified 13/		1-12	121475	,	249	220	240	207,421

Data for fiscal years ended June 30, except 1820 to 1831 inclusive and 1844 to 1849 inclusive fiscal years ended Sept. 30; 1833 to 1842 inclusive and 1851 to 1867 inclusive years ended Dec. 31; 1832 covers 15 months ended Dec. 31; 1843 nine month ended Sept. 30; 1850 fifteen months ended Dec. 31; and 1868 six months ended June 30.

Date for Austria Hungary were not reported until 1861. Austria and Hungary have been recorded separately since 1905. In the years 1938 to 1945 inclusive Austria was included with Germany, United Kingdom not specified. In the years 1901 to 1951, included in other Europe.

From 1820 to 1868 the figures for Norway and Sweden were combined.

Poland was recorded as a separate country from 1820 to 1898 and since 1920. Between 1899 and 1919
Poland was included with Austria-Hungary, Germany, and Russia.

Class 1921 the Purish Employee the book between the second

Since 1931 the Russian Empire has been broken down into European U.S.S.R. and Siberia or Asiatic U.S.S.R.

No record of immigration from Japan until 1861.

138

911/

412/

16/

II/

No record of immigration from Turkey in Asia until 1869.

Prior to 1920 Canada and Newfoundland were recorded as British North America. From 1820 to 1898 the figures include all British North American possessions. No record of immigration from Mexico from 1886 to 1893.

Bulgaria, Serbia, and Montenegro were first reported in 1899. Bulgaria has been reported separately since 1920 and in 1920 also a separate enumeration was made for the Kingdom of Serbs, Croats, and Slovenes. Since 1922 the Serb, Croat, and Slovene Kingdom has been recorded as Yuposlavia.

Countries added to the list since the beginning of World War I are theretofore included with the countries to which they belonged. Figures are available since 1920 for Czechoslovakia and Finland

and since 1924 for Albania, Estonia, Latvia, and Elthuania.

No record of immigration from Rumania until 1880.

Included with countries not specified prior to 1925.

The figure 33,523 in column headed 1901-1910, includes 32,897 persons returning in 1906 to their homes in the United States.

Figures for Luxembourg are available since 1925.

Beginning with the year 1952, Asia includes Philippines. From 1934 to 1951 the Philippines were included in the Pacific Islands. Prior to 1934 the Philippines were recorded in separate tables as insular travel.

Beginning in 1957 China includes Formosa.

Other grounds	211	5	5	82	12	6	10	38	14	19	20

If Cases of 359 persons expatriated for departing from or remaining away from the U.S. to avoid military service, reported for 1955 - 1963, were not included because this statutory provision was ruled unconstitutional by the U.S. Supreme Court on February 18, 1963. (Kennedy v. Francisco Mendoza-Martinez (372 U.S. 144) and Rusk v. Joseph Henry Cort (372 U.S. 2:4)).

This ground of expatriation no longer valid. Supreme Court decision in Schneider vs. Rusk (377 U.S. 163, May 18, 1964) ruled as unconstitutional, statutory provisions which cause naturalized citizens to loose their nationality by extended residence abroad.

TABLE 52. PERSONS REPATRIATED: YEARS ENDED JUNE 30, 1955 - 1964
